Broker-Package Intake Checklist

Property: _____

Date: _____

Part C: The package.

Takes in: the broker package and your call notes

Hands to: AS-06

The package lands. Before anyone opens a spreadsheet, tag what you know versus what you were told. The status key: V verified, B broker or seller reported, M missing, A assumed, C calculated, U unresolved. Every claim carries a source and a date. Unverified is worth $0. This sheet is the paper ancestor of ParkProof.

Calibration: a solid package answers your next three questions before you ask them. A thin one answers none and calls the rest available on request.

The Critical 12: must reach V before an LOI

#	Document	Status
1	12 months bank statements, all accounts	
2	Current rent roll with lot or site numbers	
3	12 months utility bills, every meter	
4	Last 2 years tax returns	
5	P and L on actuals, not pro forma	
6	Water and wastewater permits, current	
7	Insurance declarations and loss runs	
8	Current property tax bill	
9	Park-owned home titles and lien search	
10	Leases and park rules	
11	Phase I or environmental disclosure	
12	Debt, liens, and judgments search	

Evidence Score = (Critical 12 at V) / 12 x 100. No LOI until the Critical 12 are V. That is the gate.

Critical 12 at V: _____ **Evidence Score (%):** _____ **Gate met (date):** _____

Beyond the Critical 12

The Critical 12 already carry status columns on page 1. Tag the rest here.

Document	Status	Source and date
Payroll records, if any		
Vendor contracts		
Title commitment		
Survey		
Zoning and occupancy letter		
Tenant-owned delinquency aging		
Abandoned-home log		

Front page 1: the Critical 12 and the gate. Front page 2: the rest of the intake, the package-quality read, and the call.

Package-quality flags: each one is a flag

- [ ] Pro forma mixed with actuals and not labeled.
- [ ] Best months annualized into a full year.
- [ ] Cap rate quoted on pro forma income.
- [ ] 'Potential,' 'upside,' or 'pro forma' income lines.

Counts and the call

V: _____ **B:** _____ **M:** _____

A: _____ **C:** _____ **U:** _____

Top three open questions: _____

Go for now / no-go for now: _____

Worked example: Maple Bend Estates (fictional)

41 material facts tagged: 9 V, 22 B, 10 M. Check: 9 + 22 + 10 = 41. Stated in one sentence: of 41 material facts, 9 verified, 22 claimed, 10 missing. Critical 12: 4 at V. Evidence Score = 4 / 12 x 100 = 33.3%. Gate not met.

The rent roll claims 44 occupied at $410 (B). The bank says $189,000 in deposits. Claimed annual rent: 44 x 410 x 12 = $216,480. Deposit gap: 216,480 - 189,000 = $27,480, which is 27,480 / 216,480 = 12.7% of claimed. Package-quality flags hit: best months annualized, cap rate quoted on pro forma. The package earns no spreadsheet until Tier 1 lands.

The Doctrine

The belief this shatters: information is either true or false. Information has provenance and an expiry date. A bank statement from March is not a fact about December. A deal is decided by the ratio of verified to claimed at the moment of commitment, and this sheet is where that ratio lives. The rule: every fact carries a source, a date, and a status letter. Speak in the letters until your partners, your lender, and your attorney pick up the vocabulary. Unverified is worth zero, and a package that will not survive tagging will not survive diligence. Tag first. Analyze second. Offer third, or walk.
