The Evidence Status Standard

Date: _____

Every claim in this library carries one letter. The letter is the claim's status, not its strength. A letter changes only when the evidence changes.

Letter	Name	Meaning
V	Verified	You hold the document or saw it yourself.
B	Broker-reported	Claimed by the seller or broker. Not verified yet.
M	Missing	Requested or not yet requested. Not yet received.
A	Assumed	An underwriting assumption, stated openly.
C	Calculated	Your math from verified inputs.
U	Unresolved	Conflicting, unclear, or refused. Anything not produced by the deadline becomes U, and the silence is data.

One example per letter

- V: you walked all 48 lots and counted 41 occupied yourself.
- B: the seller says 44 lots are occupied. You have not verified it.
- M: you asked for 12 months of bank deposits. They have not arrived.
- A: you underwrite at an 8% target cap rate. Stated openly on the page.
- C: 41 occupied lots times $410 contract rent times 12. Your math from verified inputs.
- U: the rent roll says 44 occupied, the deposits say 41, and the seller will not explain the gap. The deadline passed. The silence is data.

The three rules

1. Unverified is worth $0. A B claim pays for nothing until it becomes a V.

2. Every claim carries a source and a date. A claim with no date is a rumor, even with the right letter.

3. The letter changes when the evidence changes. Crossing out a B and writing V without the document is fiction.

How to mark a page

Give every number and claim a letter column or a margin letter. When you underwrite, price only the V and C lines. The B lines are the seller's story. The M and U lines are your request list. The A lines are your assumptions, priced openly.

Use this standard on every tool in the library. The Decision File (AS-19) collects the letters into the final call.

This resource is an organizational tool, not professional advice. Investment, legal, engineering, title, environmental, insurance, tax, and lending decisions belong with qualified professionals.
