EMD Countdown Tracker

Earnest money goes hard once, usually 45 to 60 days in. This tracker keeps every deadline visible so no contingency waives before its evidence is in hand.

1. Fill in your dates

EMD goes hard: _____ **Closing date:** _____ **DD period (days):** _____

Inspection ordering deadline: _____ **Financing commitment date:** _____

Document delivery deadline: _____ **Contingency waiver date:** _____

2. Countdown

3. The rule

No contingency waives until its evidence is in hand. EMD goes hard only on the contract date: never early, never on a verbal promise.

4. If a deadline slips

- [ ] Do not waive. Ask the seller in writing for a dated extension before the deadline hits.
- [ ] Move every downstream deadline on this sheet the same day, so nothing silently goes hard.
- [ ] If the seller refuses the extension, treat the missing evidence as a walk-away signal, not a reason to hurry.
