Evidence-Request List

The follow-up to the Broker-Package Intake Checklist. Every item your intake flagged as Missing or Unresolved becomes a specific document request below. Send requests in one organized batch: brokers respond better to a single professional list than to a drip of one-off emails.

Property:	Broker / Seller contact:	Requested by:	Date sent:

How to use: check each item requested, note the date received, and update the evidence status in your intake checklist or workspace. If a document cannot be produced, that is itself a finding. Record it as unresolved and carry it into your risk register and offer terms.

☐ Rules, policies, and resident handbook	What residents were actually promised
☐ List of ancillary income sources with support	Laundry, storage, vending claims vs. records

7. Request logistics

STEP	WHY IT MATTERS
☐ Send as one batch, with a requested-by date	Signals a serious, organized buyer
☐ Log receipt date per item; chase only what is outstanding	Keeps the record clean and the pressure fair
☐ Record every “cannot provide” as unresolved, with the reason given	Silence is evidence too. Price it or walk
☐ Reconcile documents against each other (rent roll vs. deposits vs. tax return)	Single documents flatter; cross-checks do not
