Lender One-Pager

Borrower: _____ **Property:** _____

Lenders do not think in lot rent and vibes. They think in trailing actuals, coverage, and who pays the utilities. Fill this in before the meeting so you answer their questions before they ask them.

1. The snapshot

Purchase price: _____ **Down payment:** _____

Trailing 12-month actual revenue: _____ **Normalized NOI:** _____

Proposed annual debt service: _____ **DSCR (lenders look for ~1.25x cover):** _____

Lot count: _____ **Occupancy:** _____

Utility structure (who pays): _____ **POH count / POH exposure:** _____

2. The 12 questions they will ask

- [ ] Show me 12 months of bank deposits, not just the P&L.;
- [ ] Who pays the utilities and can you prove it?
- [ ] How many park-owned homes and what are they really worth?
- [ ] What is your management plan?
- [ ] What is your experience operating this asset class?
- [ ] Walk me through your expense assumptions versus the seller's.
- [ ] What breaks in the next 5 years and what does it cost?
- [ ] What is your contingency if occupancy drops 15 percent?
- [ ] Who runs the park day to day if you keep your job?
- [ ] Show me the last 12 months of utility bills.
- [ ] What is your reserve plan for infrastructure?
- [ ] Why this park, and why now?

3. Before the meeting

- [ ] Bring 12 months of bank statements, the rent roll, and your insurance quote.
- [ ] Know your DSCR cold. If you cannot defend the coverage, the meeting is over.
- [ ] Have your attorney and CPA names ready. Lenders read a missing team as a missing plan.

This sheet prepares you for questions. It is not financing advice. The lending decision belongs to your lender.
