The Red-Flag Triage Board

1. How to use it

Score each flag 1-3 on severity, 1-3 on cost-to-fix. Multiply: 1-2 MONITOR, 3-4 RENEGOTIATE, 6-9 KILL.

- KILL: walk. It cannot be priced in, or the seller will not let you verify it.
- RENEGOTIATE: price reduction backed by a contractor bid or an expert finding.
- MONITOR: manage after closing. Do not pay the seller for it.

Red flag	Sev	Cost	Score	Bucket (K / R / M)
Occupancy above permitted septic/sewer capacity				
Unresolved environmental liability on the land				
Seller refuses inspection access				
Flood-zone sites with no mitigation				
Clouded or disputed title				
Deferred road and pad work across the park				
Aging lift station, no service records				
Electrical pedestals below current code				
12 months of utility bills missing				
Park-owned homes in rough shape				
Grandfathered zoning that lapses on sale				
Water master meter, no submeters or RUBS				
Septic system near end of life				
Below-market rents with a clear raise path				
Cosmetic common areas (signage, office, paint)				
Single-vendor service contracts				
Minor rule-enforcement gaps				
Manager living rent-free, no written agreement				
Backdated or unsigned leases on file				
Deferred tree work over roads and pads				

THE RENEGOTIATION RULE: Renegotiate only on specific big-ticket items backed by a bid or an expert finding, never on a list of 30 pesky issues.
