The Decision File

Property: _____ **Date:** _____

Part F: Decide and structure.

Takes in: every tool's output

Hands to: your decision: advance, retrade, pause, walk

Every tool in this library feeds this page. Fill it in before you sign anything.

Feeds from: rent and occupancy from AS-15 and AS-15R; expense baseline from AS-08; water and sewer from AS-13; flags from AS-14; walk triggers from AS-01.

1. What is verified

Status key: V = Verified (you hold the document or saw it yourself). B = Broker-reported (claimed by seller or broker, not yet verified). M = Missing evidence. A = Assumed (underwriting assumption, stated openly). C = Calculated (your math from verified inputs). U = Unresolved (conflicting, unclear, or refused; not produced by the deadline, and the silence is data). Unverified is worth $0; every claim carries a source and a date.

Item	Evidence in hand	Status (circle)
Collected rent and occupancy	Rent roll plus 12 months of bank deposits	V / B / M / A / C / U
Who pays the utilities	12 months of utility bills in the seller's name	V / B / M / A / C / U
Expense baseline	Seller P and L, bank statements, tax return	V / B / M / A / C / U
Water and sewer condition	Inspection report, sewer scope, permits	V / B / M / A / C / U
Title, zoning, license	Title commitment, zoning letter, park license	V / B / M / A / C / U

2. The Bridge, in dollars

Claimed revenue minus the explained gap = deposits. Deposits minus verified expenses = seller NOI. Seller NOI minus normalization = stabilized NOI. Every dollar of the gap gets a name.

Claimed annual ($): _____ **Explained gap ($):** _____ **Unexplained gap ($):** _____

Pause threshold (%): _____ **Unexplained as % of claimed:** _____

Unexplained is worth $0. If the unexplained gap beats your pause threshold, the deal pauses until documents explain it, not words.

3. What is claimed but not proven

The claim	Who said it	What it is worth today
		$0 until verified
		$0 until verified

4. What is still missing

Missing item	Who owes it	Deadline	If it never arrives

Front continues on page 2: the price the evidence supports, the walk triggers, and the decision.

5. The price the evidence supports

Evidence price = stabilized NOI / your target cap rate. Stabilized means proven, not promised.

Stabilized NOI comes from your Normalizer (AS-08), built on revenue you verified.

Stabilized NOI ($): _____ **Target cap rate (%):** _____ **Evidence price ($):** _____

Asking price ($): _____ **Gap: asking minus evidence ($):** _____

The gap is not a discount target. It is the size of the story you cannot prove.

6. Walk triggers

Copy the triggers from your Walk-Away Pact (AS-01). If one fires, the decision below is already made.

Trigger 1 that ends this deal: _____ **Trigger 2 that ends this deal:** _____

7. The decision

Circle one: ADVANCE / RETRADE / PAUSE / WALK

- ADVANCE: every missing item above has an owner and a deadline. Nothing unresolved can end the deal.
- RETRADE: the evidence price is now the offer. The gap above becomes the renegotiation, with the flags and the holdback attached.
- PAUSE: the clock stops until one named item arrives. The seller gets the name and the date in writing.
- WALK: a trigger fired, or a high-severity flag stayed unverifiable. The file made the call, not your feelings.

Signed: _____ **Date:** _____

Worked example: Maple Bend Estates (fictional)

Fictional park, fictional buyer. Seeds: claimed annual rent $216,480 (44 x 410 x 12), explained gap $25,360, deposits $189,000, seller expenses $71,000, normalized expenses $112,530 (full AS-08), ask $1,650,000, 3 derelict units, well and clustered septic with permits missing. The fictional buyer's stated target cap rate: 8%.

The Bridge

Bridge line	Math	Result
Claimed annual	44 x 410 x 12	$216,480
Explained gap (AS-15)	$25,360 explained; expected deposits 216,480 - 25,360	$25,360
Expected deposits	216,480 - 25,360	$191,120
Actual deposits	12 months of bank deposits	$189,000
Unexplained gap	191,120 - 189,000 (0.98% of claimed, under the 2% pause threshold)	$2,120
Seller's stated NOI	216,480 - 71,000 (claimed revenue, seller's expenses)	$145,480
Deposit-basis NOI	189,000 - 71,000 (proven revenue, seller's expenses)	$118,000
Normalized NOI	189,000 - 112,530 (proven revenue, full AS-08 expenses)	$76,470

The decision

Line	Math	Result
Evidence price	76,470 / 0.08	$955,875
Gap	1,650,000 - 955,875 (72.6% of the evidence price)	$694,125
Decision	RETRADE	$925,000 offer with the $40,000 utility holdback

The gap in two lines: $694,125 is the ask minus the price the evidence supports, 72.6% above it. $184,500 of it is phantom rent (3 derelict units x 410 x 12 = $14,760 a year, at 8%); the rest is the expense and revenue story you cannot prove.

Status letters on the page: revenue B on claimed ($216,480), V on deposits ($189,000); expenses B; water and sewer M; title and zoning M. Walk triggers: 0 fired. Decision: RETRADE at $925,000 with the $40,000 utility holdback from AS-13 and AS-14 riding inside the offer terms. The $694,125 gap is not a discount target. It is the size of the story you cannot prove.

The Doctrine

The belief this file shatters is that the decision is about whether you want the park. Want is irrelevant. The decision is what the evidence supports: the verified revenue, the priced flags, the permitted systems, the gap with a name on every dollar. The bridge turns a feeling about the price into arithmetic: claimed, explained, proven, priced. A deal you love with a $694,125 gap is a deal you retrade or walk. The one rule: the evidence price is the offer. Everything else is commentary. The rite of passage is walking a deal you loved because the gap was bigger than the story, and meaning it.
